

**Monday , March 3, 2014**

**9:00-9:30**    **1.    Welcome and introductions**    - Mercedes Juan Lopez MD  
 - David Kershenobich MD,PhD  
 - Roderic Pettigrew MD, PhD

**9:30-10:30**    **2.    Glucose Control**    Moderators:  
**SESSION**    - Francine Kaufman MD  
 - Carlos Aguilar Salinas MD

- Improving Glucose Control in Diabetes:  
 The Approach Needs to Balance Benefits and Risks.    Robert Sherwin MD    20´

- Intelligent Decision Systems that Follow the Patient    Roberto Tapia MD,PhD    20´

- Diabetes Technology-Pumps and Sensors    Francine Kaufman MD    20´

**10:30-11:30**    **Broad discussion**    All participants

**11:30-12:00**    **3.    Comprehensive Care/How does Glucose Control Contribute**    Judith Fradkin MD    30´  
**LECTURE**

**12:00-13:00**    Lunch

**13:00- 14:00**    **4.    Kidney Disease**    Moderators:  
**SESSION**    - Jonathan Himmelfarb MD  
 - Gerardo Gamba MD,PhD

- Population Management to Reduce End Stage Renal Disease:  
 Indian Health Service Experience    Andrew Narva MD    20´

- Diabetes Kidney Disease:  
 What do we know and do we need to learn?    Jonathan Himmelfarb MD    20´

- Biomarkers for Detection and Prognosis of Diabetes  
 Kidney Disease    Robert Nelson MD    20´

**14:00-15:00**    **Broad discussion**    All participants

**15:00-15:30**    **5. Comprehensive care/ How does Kidney prevention contribute**    Ricardo Correa-Rotter MD    30´  
**LECTURE**

**15:30-17:00**    **6. Perspectives of development ( I )**    Moderators:  
 - Judith Fradkin MD  
 - Sergio Alcocer PhD  
 - Carlos Aguilar Salinas MD  
 - Robert Sherwin MD  
 - Jonathan Himmelfarb MD  
 - Andrew Narva MD  
 - Robert Nelson MD  
 - Ricardo Correa-Rotter MD  
 - Francine Kaufman MD  
 - Roger I. Glass MD, PhD  
 - Isro Gloger M D

**Tuesday , March 4, 2014**

**09:00 -09:30 1. Welcome and introductions** - Enrique Ruelas MD  
- Judith Fradkin MD

**09:30-10:30 SESSION 2. Retinopathy** Moderators:  
- Enrique Graue MD  
- Peter Soliz PhD

- Available and Future Approaches in Diabetic Retinopathy in Mexico David Rivera de la Parra MD 20'

- Retinal Imaging Telemedicine for Diabetes Management and Blindness prevention Jorge Cuadros OP, PhD 20'

- Pathways to Successful Implementation of Retinopathy Screening Peter Soliz PhD 20'

**10:30-11:30 Broad discussion** All Participants

**11:30-12:00 LECTURE 3. Comprehensive Care/Retinopathy** Javier Lozano MBA 30'

**12:00-13:00** Lunch

**13:00-14:00 SESSION 4. Neuropathy and Diabetic Foot** Moderators:  
- Aristides Veves MD  
- Abraham Majluf MD

- Healing and Preventing Diabetic Foot Wounds David Armstrong DPM,MD,PhD 20'

- Neural Stimulations through Electronic Devices José Manuel Lerma Díaz PhD 20'

- New Bioengineered Products for Diabetic Foot Ulceration Aristedes Veves MD 20'

**14:00-15:00 Broad discussion** All Participants

**15:00-15:30 LECTURE 5. Comprehensive Care/ Neuropathy and Diabetic Foot** Guillermo Garcia Ramos MD 30'

**15:30-17:30 6. Perspectives of Development ( II )** Moderators:  
- Guillermo Arreaza-Rubin MD  
- Julia Tagüeña Parga MD  
- Roderic Pettigrew MD  
- Judith Fradkin MD  
- Francine Kaufman MD  
- Guillermo Ruiz Palacios MD PhD  
- Guillermo Fernandez CEO  
- Roberto Tapia Conyer MD  
- Salomon Chertorivski MPP  
- Karen Peterson MD  
- William Heetderks MD  
- Roger I. Glass MD, PhD

**17:30-18:00 SUMMARY AND CONCLUSIONS** Jose Narro MD  
Francine Kaufman MD
